

# Requirements and Specifications Sheet for Steel Targets Procurement

Based on past performance, the Border Patrol Academy (BPA) is seeking spring-loaded steel targets that are constructed of AR500 steel cut to the below listed sizes and thickness:

1. Spring-loaded Man, 25"X15" ½" in thickness with overall weight at least 60lbs
2. Spring-loaded Man, 17"X10" ½" in thickness with overall weight at least 32lbs
3. Spring-loaded Man, 11.5"X7" ½" in thickness with overall weight at least 18lbs

The following pictures are being provided for further examples and clarification of the desired item. The BPA reserves the right to finalize and approve all steel prior to purchase.

## Spring Loaded Man

### Medium (25" x 15")

3/8"	45 LBS	\$260.00
1/2"	60 LBS	\$290.00
5/8"	75 LBS	\$320.00

### Small (17" x 10")

3/8"	30 LBS	\$200.00
1/2"	32 LBS	\$215.00
5/8"	34 LBS	\$235.00

### Tiny (11.5" x 7")

3/8"	16 LBS	\$155.00
1/2"	18 LBS	\$160.00
5/8"	20 LBS	\$165.00
